BEING A PENTATHLETE

What is a Math Pentathlon

This is a program designed to help students practice and improve important mathematical concepts and skills while strengthening strategic thinking and problem solving abilities.

What is the goal of the Math Pentathlon Team?

The goal is to give students an opportunity to learn and practice 5 math-based strategy games and then have the chance to compete at the National Mathematics Pentathlon Tournament. Mansfield ISD will be hosting the National Tournament for the K-1, 2-3 Divisions. It will be held at Timberview High School on March 25.

What are the expectations of being on the Math Pentathlon Team?

Students are expected to come to every meeting ready to follow these rules:

Positive participant

Exceptional listener

Respectful to all

Really good sportsmanship

You will follow directions

Attendance: Games are taught at meetings and coaches will not have the time to re-teach multiple games if attendance becomes an issue. Therefore, if a student misses more than 2 meetings, coaches have the option to remove the student from the club.

Behavior: If a student's behavior is disruptive in the club meeting, parents will be contacted. If the behavior continues, coaches have the option to remove the student from the club.

When are the club meetings?

Kindergarten will hold the club meetings every Friday from 8-8:30 beginning October 14th.

How do I sign up my child?

Please fill out the following page and have your child return it to Mrs. Luu. We only have 10 students in the club this year, so please return it as quickly as possible as students will be taken in the order paperwork is received. Registrations must be in by Oct. 7th. Members will be announced on Oct. 11th.

Requirement: Our one requirement is that your child must commit to compete in our National Mathematics Pentathlon Tournament on March 25th to be able to join the club. The fee is approximately \$40.
