

## KINDERGARTEN HOMEWORK POLICY

In Kindergarten this year, we are trying something new! We will not formally assign weekly homework. The only homework your child will have is work that they did not finish during the school day. This work will come home with a note attached as to why it was not completed in class. Please complete and return these assignments as soon as possible.

Additionally, beginning in October, we will ask that you read nightly with your child and sign their reading log and practice sight words until they are mastered.

Otherwise, we ask that you spend your evening time together as a family. Read together, play outside together, and get your child to bed early. These things are just as important.
