Tech Apps Wiki

Hey Parents,

My name is Jami Davis and I am the Tech Apps teacher here at Perry. I just wanted to let you know of a great learning resource that we use here at school that you can also use at home. It is our school WIKI. If you have internet access at your house, you can access the wiki. You just go to www.aperry.wikispaces.com. You can also save this as a shortcut on your desktop. The shortcut is how the students use it in my class so they are familiar with how to use it and what is on it.

The wiki is a living document, in that it changes. I collaborate with the classroom teachers and will add websites often that will have extension activities and practices for items they are learning in their classrooms. It is divided by grade level and by subject area. It is all kid friendly games.

I invite you to take a look around our wonderful wiki.

Thanks for allowing me the opportunity to teach your child!

Jami Davis
